Science Fair Will Begin Next Week

Over 100 high school projects produced by high school students from Northeastern Oklahoma, Southwest Missouri and Kansas will be on display March 13th at Northeastern A&M College's first science fair, according to Frank W. Cunningham, head of the college chemistry division.

Highlighting the two day fair will be an address by Robert W. McVicar, vice-president of academic affairs and dean of the Graduate School at Oklahoma State University. McVicar will be the featured speaker at a special program to be presented at the college auditorium. Friday, March 31, at 3:30 p.m. for the visiting scientists.

The top boy and girl winner at the Northeastern A&M Fair may participate in the national Science Fair at Kansas City May 11th, 12th and 13th. The top winners in the junior high school division will also be eligible to go to the state fair in Oklahoma City.

Winners will receive trophies, medals and ribbons to be presented at an awards assembly April 1st at 10 a.m. in the college auditorium.

Sponsors of the various awards being given include the Ottawa County and Delaware county medical association, a plate; Willey-Gould, a $100.Southeast Bell Telephone Company, a plaque; U.S. Navy, the Navy Science award to the top student or junior boy; Chemical Rubber Company, handbook of Chemistry and Physics and the Chemistry Society Inc., a home manual and book of Popular Science.

Also the Eagle-Observer Company and the B F Goodrich Company, providing funds for expenses of winners in the National Science Fair at Kansas City, Northeastern A&M college, ribbons and medals.

Judges for the fair will be chosen in the same three divisions. There will be three judges each consisting of at least one professional scientist, one high school teacher and one layman.

Judges include Dr. Roy Brown, head of the Department of Zoology, Oklahoma State University; W. E. Modell, research chemist for Eagle-Observer; Dr. R. C. Nickels, Kansas State University; and P. R. D. Adkins, instructor in Physics at Northeastern A&M College. See SCIENCE on page 3.

College's Speech, Livestock Teams Place in Tournaments

Northwestern A&M's speech department finished second in Eastern A&M'sMarkupContest with the state college speech team winning all of the major awards.

Second place in the overall competition at the State Fair Stock Show were Coach Rosie Owen's speech students who were invited to receive the special award for outstanding original speaking and competition speaking.

Second place in the overall competition, for the state college's one act play was the play written and directed by Dr. R. C. Nickels. The play was presented at the State Fair, and the cast was selected from the college's stock show team.

In the livestock judging contest James Widmer, high school student, was selected as the best judge. He was one of the judges who made the trip to Topeka, Kansas, where the state high school livestock judging was held.

Russia vs. America

For the past 18 years most American officials and leaders have accepted the notion that the Soviet union represents a godless, materialistic, global conspiracy whose main goal is to subvert and subjugate. Communism is regarded as a sort of virus or disease which threatens to destroy freedom and liberty everywhere.

The struggle between the East and West is thus pictured as an "ideological struggle for the minds and hearts of men." It is felt that the outcome will be the total victory of one side and the total defeat of the other. Khrushchev often quoted phrase, "whether you like it or not, the choice is yours; we will bury you," as proof of the validity of this interpretation of the struggle between the East and West.

Let us look at some of the implications of a policy based upon this view. (1) We tend to view any pressure for change of any government now friendly to us, or any revolutionary action, as being communist inspired rather than as an expression of true nationalism. We tend, in other words, to favor the status quo and to blind ourselves to the honest Nationalist impulses of people wishing to overthrow a corrupt or moribund regime. (2) We tend to view any Soviet inspired scheme of "peaceful coexistence" as just another trick or scheme to confuse the West. We seem to fail to recognize that Mr. Khrushchev, unlike Marx or Lenin, has some knowledge of hydrogen bombs and of the implications of a nuclear war to the continued survival of man; and (3) we fail to recognize that the new Russian imperialism is proceeding on the economic plane. The aim is to reduce the United States to a second rank power through the achievements of the Soviet economy itself.

The aim is to offer to the underdeveloped world a model for industrialization. Let me elaborate on this point.

The USSR has shown that a nation can build its economy through controlled production and consumption rather than awaiting the slow accumulation of capital through the growth of a private enterprise. The Soviet approach emphasizes cooperation and sacrifice rather than individual wealth and freedom. It presents an approach to nations on the margin which have insufficient resources and (they feel) insufficient time to permit capital formation and accumulation through private enterprise.

A Walter Lippman wrote recently: "We cannot beat the Soviet example by our example. For we are not an example that backward peoples can follow and, unless we can manage to create an example which they can follow, we shall almost certainly lose the cold war in Asia and Africa, and perhaps elsewhere."

I believe that in the coming decade we must abandon what I call the "all or nothing" concept of the struggle with the Soviet Union. The notion that virtue will somehow triumph over evil, that we will win the struggle as long as we are "right"—all of this sounds fine, makes excellent campaign oratory, evokes patriotic emotion from people, but may have little, if any, relevance to the power relations that exist among nations.

The Soviet Union is here to stay. Communist China is here to stay. The force generated by the development of these societies must be met with a countervailing force generated by our own development as a free society. In very large measure the Soviet challenge centers on the performance of free society. The United States has coexisted with Russia, Communist China, the satellite empire, for over a decade. It has demonstrated its capacity to maintain the status quo; it has not demonstrated any power over the situation appreciably.

The struggle of the 70s will be decided, 10 feet, by the system which can better adapt itself to the awakening of the backward regions, the increased demand for education, the population explosion, and the nationalists aspirations, everywhere present, to enjoy the fruits of applied science and technology.

Blue and Gold Blankets Presented Nine NEO Sophomore Norse Star Lettermen

BY NEAL BLOOMFIELD

Nine members of the Norse Star drill team were presented colorful blue and gold blankets for being active participants in the drill team for the past four years.

The blankets were presented by the drill team to the seniors on the team. The seniors received the blankets as a token of appreciation for their years of service.

The blankets were presented in the gymnasium during the halftime of the varsity basketball game. The seniors were presented with each blanket as they walked onto the court to receive their recognition.

The blankets were handmade by the drill team members and were made with blue and gold fabric. The blankets were decorated with the Norse Star logo and the name of each senior.

The presentation was well received by the seniors and the audience. The seniors expressed gratitude for the gifts and the recognition.

The presentation was a touching moment for the seniors and a memorable event for the Norse Star drill team.
Students Interested in Summer Work Should Begin Seeking Employment Now

BY ELIZABETH KING

If you are planning to work this summer, either for the summer or to begin a permanent position, now is the time to look for that job. When the school semester ends the last of May, swarms of high school graduates and college students will descend on the employment offices and personnel departments and the competition in finding a desirable position can be very discouraging.

Perhaps the most important thing you can do when you start to look for a job is, “If Muhammad won’t come to the mountain, the mountain must go to Muhammad.” That is, very few of us will be fortunate enough to have someone comes to us with an offer of a job; most of us will have to employ a bit of initiative and determination.

There are many non-profits and private agencies which help people locate work. One which we are all familiar with, of course, is the State Employment Office which charges no fee.

Many students secure summer positions in National Parks through the aid of their school or in programs with which many students at Northeastern A&M are acquainted.

In the larger cities there are many private employment services which charge a fee for a fee. Though you may decline the idea of having to “pay” for a job, you have the advantage of having someone help you know the right place to look for a job, while you may be affiliated with the city and its organization, you may be lucky enough to get a job by applying directly to the personnel department of a company. However, whether you are looking for a job or are the one about looking for a job, you will profit by your educated stance. Get your application now!

Cindermen Meet Eastern Tuesday in Wilburton Meet

With only three weeks of conditioning, coach Jack Racine's 1961 wind is a double header in its first official test when they travel to Wilburton on Thursday afternoon.

A highlight of the first three weeks of training was an intramural basketball game between teams of Trice, Steve Phillips, Dave Bracy and Barry Park all housed in the various campus dorms. Phillips, a second semester transfer from Okmulgee, Oklahoma, generated three fast score runs by scoring Tulsa's Barry Park in the 50-yard dash. He later scored Park at the 25-yard line, and then blocked jumping bombs jumping 12 feet.

Superb day for Bracy by Lindsey scored on Miami basketball beat Western in the 3rd quarter. He scored Park at the 25-yard line, and then blocked jumping bombs jumping 12 feet.

Superb day for Bracy by Lindsey scored on Miami basketball beat Western in the 3rd quarter. He scored Park at the 25-yard line, and then blocked jumping bombs jumping 12 feet.

The highlight of the first quarter was Cinder's Walker introducing 1960-58-second-place in the Oklahoma Junior College Conference. The 1961-20-58-second was the first of the four quarters.

Calamus Selected To Second Team

NEOS-MYTH Calamus was named to the second team all-Conference basketball squad selection recently. The team concluded the season with a 14-6 average, having 20 games under .500.

Jim Runde, Cameron, tied for first place in the voting with Erwin Murr. Another third place voting was the twin brother of the first team. Mike Humber and Mike Berry. Conner's Tommy Conner is the first-person member of the first team.Recorder's top scorer in the season with a 2.5 average

Cain scored on the second team were the first All-American second team. A third team, Mike Davis and Keenan Clapp, are named to the second team. Davis and Keenan Clapp, are named to the second team.

Receiving honorable mention were Travis Runde, Murray, Oklahoma; Baccus, Oklahoma; Bill Johnson, Northwestern, Lado Real; Real, Seville, Cameron; Bill Clark, Oklahoma; and Harold Jones, Brancos.

Coach Thomas will have three .

THOMAS DOWELLS BASEBALL TEAM

Against Northeastern State Nine

Northeastern State will open the 1961 season for NEOS' Humber baseball squad today at 1 p.m. on the Norse diamond.

All games will be held in a double header.

Coach Ron Thomas, NEOS' Humber baseball team, will be trying to win another conference championship this season and hoping that he will make only three renewing letters from last year's conference.

Returning from the 1961 squad will be All-American second baseman David Smith and University of Tulsa, Cass and Mike Dowell, who is the top scorer in the season with a 2.5 average.

The highlight of the five games this week was Cinder's Walker introducing 1960-58-second-place in the Oklahoma Junior College Conference. The 1961-20-58-second was the first of the four quarters.
