Sailors Welcomed For View Of Campus Life

By Sherry Hill

It is hoped that this will be more than a school student affair. And it is in this spirit that individuals of the dormitory rooms will be open to the visiting school students. It is for the reason that they may have their own personal glimpses of college life.

After 1 p.m. the sailors will be conducted on a tour of the B. F. Goodrich Tire Company. They will also be the guests of the Miami Chamber of Commerce at the Coleman theatre.

Also during the afternoon the sailors are invited to watch NEO battle the Oklahoma Military Academy in a baseball game, and cheer our boys when they meet Fort Scott, Kan. on the track field.

As a part of the day in the Brown G. Carter Student Union will cap the day's activities. Both students and college students are expected to attend.

Some of them will return in the fall—some will not. But whichever it is, Senior Day will have provided many with their first look at college life.

Northeastern Oklahoma A&M College and the area to be cleared for new campus buildings are shown in the above air photo. Buildings identified by numbers are: No. 1, the President's home; No. 2, the 1868-1885 building; No. 3, the auditorium and gym; No. 4, the administration building and library; No. 5, the residence hall - boys dorm; No. 6, the residence hall - girls dorm; No. 7, the residence hall - dormitory; No. 8, the residence hall - boys dorm.

The projects will utilize space currently owned by the college and to be utilized for educational purposes.

With the present programs of the college, it is believed that the buildings and facilities will be adequate for the present and for the future.

The new buildings will accommodate up to 176 students and will be constructed to a maximum of 31,000 square feet. The cost of the construction will be approximately $1.2 million.

The first step in the construction of the new buildings is the preparation of the site. This will include the removal of all buildings and the preparation of the site for construction.

The construction of the new buildings will be supervised by the college architects, Dr. Bruce G. Carter and Associates.

The new buildings will have a capacity of 320 students and will be constructed to a maximum of 31,000 square feet. The cost of the construction will be approximately $1.2 million.
Customized Interior And Body Make A Student’s Dream Car

BY JUDY CAPERNAY

"How do you open the door? The handles are gone." The only sign of a lock on the door of Bill Ayer's car is the stainless steel door handle, as Bill is the only member of the General Motors Corporation who has keys. Bill's car is unique in that it has been custom-built to his specifications. The body of the car, designed by his father, consists of a 1955 Ford with a custom body. The interior of the car is also custom-built, with red and white vinyl upholstery, brass trim, and a built-in radio. The car is driven on a private road near the General Motors plant.

Government Students Get True View Of Politics In Action, Not In Theory

BY SHERREY HILL

Not politics in theory, but politics in action. This is what the 4-H club at the University of Oklahoma discovered. The club had the opportunity to visit Washington, D.C., and observe the workings of the U.S. government. The students were given the chance to meet with representatives of various government agencies and learn about the political process. The experience was both educational and exciting.

Candid Campus

BY JUDY CAPERNAY

The April winds are blowing now, and the students are looking forward to the school year. The campus is bustling with activity as students prepare for the upcoming term. Mary and John are planning a picnic on campus, while other students are busy studying for exams. The campus is alive with the sounds of students coming and going, and the scent of freshly planted flowers fills the air.
AF Military Ball Scheduled; To Include Awards Presentation

BY GARY GARTON

The annual spring Military Ball has been scheduled by the AFROTC director for Saturday May 11th, to be held at the Miami Civic Center. All cadets and their dates are invited to attend this formal military function.

"The Ensembles," an eighteen piece band from Madison, has been engaged to furnish dance music for the evening.

It is planned that the AFROTC Honor Guard will be present and the Group Commander, with the group staff will make up a formal receiving line.

Among other ceremonies for the evening, a grand march has been tentatively scheduled.

Free refreshments will be served and cadets will be offered an opportunity to have pictures made of themselves and their dates, a service which proved to be very popular at the last military ball.

Naval Reserve Officers To Visit NEO

The Viking, NEO's annual will arrive on campus May 14, announced Barbara Johnson, editor. The annual will be checked out to students through the Finance office after that date.

There's a new Beatnik doll on the market. You wind it up and it doesn't work.

Next Year's Sophomores Pre-Enroll May 14 In Bruce Carter Student Union

Freshmen students who will be about 11 months securing their sophomore status will be enrolled for the fall semester Tuesday May 14 from 1 to 4 p.m. in the Bruce C. Carter Student Union.

The object of pre-enrollment is to eliminate many of the problems encountered during fall enrollment, such as waiting in line, filling out classes and processing confusion.

During the pre-enrollment period a student will be able to enroll in the classes he chooses before they are filled. He will have more time to consider advisors, and prepare his sophomore schedule.

Next fall, those who have pre-enrolled will have to spend only $7.50 to maintain their place.

NORSE TROUNCE AGGIES 11 TO 2

Connors who have been beaten twice, both times by the Norsemen, found it hard to deal with the Nor-

sman’s offense. The Norsemen had two runs scored before the inning started, and the Aggies’

batteries were on. Connors scored two runs in the third when the Norsemen scored three more runs.

Two weeks previous, the Norsemen defeated Connors for the first time in the season, 10 to 1.

A woman applying for her driver’s license was asked about the simple question. "And what is the white line in the middle of the road for, Madam?"

"To stop the cars," she thought it over for a moment, then blurted out, "Hazard.

GRANT PERRY

A hole in one was made by Grant Perry, an NED freshman from Midwest City. The event took place Monday, April 15, in the Midwest City golf course.

Grant, who has been playing golf for two years, made his hole in one on the seventh hole of the course. He was accompanied by his brother Dean Perry.

The only comment he had to make about the feat was: "I was darn lucky, a lot of good golf-

ers never make one in their whole life, and here I have made one in the first two years I have been playing."

Grant is the son of Mr. and Mrs. A. G. Perry of 281 Robin Road, Midwest City.

The Norsewind – the NEO A&M College Newspaper

Digital copies of The Norsewind, Northeastern Oklahoma A&M College’s student newspaper, are available in .pdf format on the NEO website for non-commercial purposes only. Scans were created using the best available editions through the assistance of the Oklahoma Higher Education Historical Society from microfilmed images. Where stains, color-fading, contributed marks or ripped pages were visible on the original, they also appear in the digital copy. NEO newspaper editions that do not appear on the website are not part of the collection at present. If you would like to donate a missing, damaged or incomplete copy of The Norsewind, please contact the NEO Library.
