Council Leaders Recently Elected

Opening under a new constitution and council leadership, the council meets this month as members take over from those who served last year. The new constitution, constructed this year by Delilah Reynolds, allows for greater director representation, making possible a vote on each of the council's proposals.

The new proposal, as agreed to by Delilah Reynolds and president, does not change the name of the council, but allows for the addition of new members at any time. The council is made up of six directors, one from each of the four districts, plus a president, a vice president, and a secretary. The council is governed by a board of directors, which meets monthly to discuss issues.

"One of the main objectives of the council is to be an active voice in the community and to provide a forum for the exchange of ideas between community members and the council," said Delilah Reynolds. "We believe that our council is ready to take on the challenge of providing a forum for the exchange of ideas and to be an active voice in the community."
Litter Problem
Dear Editor:

Looking around the campus, I see a need to bring up the problem of litter. There are bathrooms, but there are no public ashtrays. I haven't seen any trash cans or recycling bins in any of the buildings. I see that people go around and throw their trash and litter everywhere.

It is very important to keep our campus clean. Not only is it a part of the community, but it is also a place for people to come and enjoy. It takes a lot of effort to keep the campus clean, but it is worth it.

Please, everyone, let's work together to keep our campus clean. Let's make sure to throw away our trash in the proper places and take care of the environment.

Sincerely,
[Name]

Male-Female Rally Squad

In the paper, I would like to comment about the editorial in the paper about the cheerleading squad. I believe that there is a lack of female cheerleaders on this campus. There are only a few women in the squad, which is not enough. I think that the school should consider increasing the number of female cheerleaders. This would make the team more diverse and increase the number of people who are interested in cheerleading.

Sincerely,
[Name]

Chilids Park New Facility

Dear Editor:

Recently, the kids at the local school have been given a place to play. With the addition of new playground equipment, the students have a place to enjoy their playtime. The playground is well-maintained and safe, providing a fun and engaging environment for the children to play in.

Sincerely,
[Name]

Election 76

Carla Magnes

Policy failure, political scandals, the Wagner “shadow”, are so many wonder than there is a number increasing Americans against the practices, personal, and institutions of government.

Opinions expressed in the Norse Wind are not necessarily those of the NEA student body, faculty, or administration. All letters to the editor are approved by the student Editorial Board. Opinions expressed in this issue are those of the individual writers. All submitted letters must be signed. The staff reserves the right to edit all copy to conform with journalistic standards.

for the past two weeks the Oklahoma winds have been getting quite fierce and so has the campus litter problem.

This normally minor problem has become increasingly more noticeable as well as more disgusting. The Northeastern A&M campus has begun to look more like a trash pit than the beautiful place that it is. From the student union to the dormitories, beer cans, pop bottles, papers, leaves, candy wrappers and milk cartons litter the campus. Who’s responsible for this problem? Does this problem lie with the individual? Should the college be accountable for this problem? Clearly, it is important for us to expect the college to take responsibility for this problem. Most state residents wouldn’t think too kindly of having taxes raised to cover the additional cost of hiring groundkeepers to pick up trash. In this case emphasis is on the individual. If each person on campus is responsible for his or her own trash, there will be no littering problem. There are plenty of refuse containers on campus. There is no excuse for this needless littering. It is rather childish at this stage in life to require special staff just to pick up litter.

Norsemen Travel To Grand Rapids

By CHET FLUTTER
American Sports Editor

After an impressive 31-7 victory over Independence, Kent, last week, the Golden Norsemen of Northeastern A&M took to the Grand Rapids, Mich., Saturday, for a 12:30 p.m. clash with the Raiders of Grand Rapids Junior College.

Coach Robert Derry's Norsemen enter the game with a 2-1-1 season mark, while Grand Rapids have won 10 times previously with the Golden Norsemen winning one and tying four. The Raiders were presented by the Norsemen 14-12 in the last meeting between the two schools in 1970.

The Norsemen have been victim in the last five real games. Leading the defense will be freshman quarterback Bill Vining from Tulsa. Vining has completed 25 of 38 passes in four games for 587 yards and five touchdowns. Other probable starters in the Norse backfield will be Jimmy Allen or Len O'Leary at tailback. Allen is the leading ground giver with 280 yards in six games while O'Leary has rushed for 155 yards in 35 carries. Another possible starter will be Spud Kendrick at fullback.

Starting wide receivers will be Jack Miller of Racine and Pat Roberts at 6-0, 205. George Cibul is expected to be the third receiver. Cibul leads in pass receiving with 10 yards in seven games and one touchdown.

The starting line for NEO will find Maurice Cibul at center, John Tarkovsky at tackle and Jimmy Harnison and Mike Luttrell starting at the guards. Dennis Fitzgerald will start at center.

Linksters Finish Second

Covering the hill schedule the Norsemen's A&M squad will again field a strong team.

Crowder Instrumental

The Norsemen tied the Golden Norsemen by three points to claim third place in the championship of the annual NEO-JSA instrumental tournament, which was played at the Muncy Country Club.

Norsemen's unit scored a 315, followed by NEO-LSU 306, Crowder of Neosho didn't qualify scoring a 308. Clarion scored a 315 with Westark of Fort Smith scoring 327.

SLIPPING A TACKLE-World Wide Weight (15), halfback for Independence, slips the grasp of a Norse defender. Allen (82) while NEO counterpart James Johnson (46) moves in for the stop.

Errors Hamper Pirates Against Norse Defense

Errors in the picking up handoff during the Norsemen's 31-7 triumph over Independence in the Community College last Saturday might have been got out in the second half. The Pirates might have scored three touchdowns and 18 points.

Curtains on the season closed, the Norsemen received kudos from the Norsemen, who climbed to a 7-1-1 mark and became a perfect foil for the Norsemen.

Individual scores for the Norsemen as follows: Craig Ketcham, 1-6-7; Daniel Mather, 1-3-27; Mike Groves, 3-0-78; Doug Bond, 4-0-90; Mike McNeely, 4-5-85.

Norsemen's final score came on an 18 yard run by tailback Jimmy Allen. An attempt at the two yarder, however, reduced the score to 9-0-18 yards, which Allen scored 9 yards in eight games.

Intramural Highlights

DON COCHRAN

Intramural Softball

More intramural softball action will be taken as the Intramural Softball Tournament is in the works in the coming days.

The current leader is the team being run by Harold Ogle. There is a big light ahead of Harold Ogle, Harold Ogle, and Russell Three Team Two.

The standings are as follows:

Harold Ogle 6
Russell Ogle 5
Ogle 5
Russell Two 4
Ogle 4
Russell Two 3

During last week's competition, Russell One defeated Russell Three by 7-2, Russell One defeated Russell Three by 2-1, and Harold Ogle and Russell Two by 1-0. Russell Three and Harold Ogle are leaders of the tournament.

Rodeo Club

The Rodeo Club is a student organization that promotes rodeo events such as bareback bronc riding, steer wrestling, and barrel racing. The club also hosts social events and fundraising activities to support the rodeo team.

Press Club

The Northeastern A&M Press Club is a student-led organization that focuses on journalism, photography, and multimedia production. The club publishes the school newspaper, The Student Voice, and produces multimedia content for the school's website. Members of the Press Club often participate in external competitions and workshops to improve their skills.

Home Ec

The Home Economics Club is a student organization that promotes the study of home economics, including topics such as nutrition, family studies, and consumer behavior. Members of the club often participate in community service projects and host events that promote healthy living and financial literacy.

Mechanics Needed
As Demand Grows

By TIM FRAZIER
Profile Editor

"The demand for refrigeration technicians in this area is so great that professionals in this area are crying for compensation to new hires that work well," commented Dr. J.D. Wilbourn, assistant director for vocational-technical education at Northeastern A&M. "Von Harrison, instructor of the new refrigeration and air conditioning program, agrees with Wilbourn, adding, "The demand is just going to continue growing."

"When the refrigeration program was originally introduced in 1970, the demand for technicians was not as high as it is today. Student interest was low. Eventually the program was put on hold for a short period of time, Wilbourn said.

"In the last five to six years, however, interest has increased tremendously, due to the emphasis placed on sustainable household refrigeration and air conditioning. The need for refrigeration and air conditioning mechanics is constantly increasing," said Dr. Wilbourn.

"The demand has almost forced us to advertise this program into a job program. The Oklahoma State Technical Institute at Oklahoma City is one of the schools that have been offering this program for several years now," Dr. Wilbourn said.

"I think that the need for refrigeration and air conditioning mechanics is going to continue to grow," Dr. Wilbourn said.
The Norsewind – the NEO A&M College Newspaper

Digital copies of The Norsewind, Northeastern Oklahoma A&M College’s student newspaper, are available in .pdf format on the NEO website for non-commercial purposes only. Scans were created using the best available editions through the assistance of the Oklahoma Higher Education Historical Society from microfilmed images. Where stains, color-fading, contributed marks or ripped pages were visible on the original, they also appear in the digital copy. NEO newspaper editions that do not appear on the website are not part of the collection at present. If you would like to donate a missing, damaged or incomplete copy of The Norsewind, please contact the NEO Library.
