Cletus Green Accepts New Job

By Jeff Goodbody Sports Editor

Cletus Green, long-time head coach, has been named as assistant coach in the NCAA Division I National Championships at Stanford, Calif.

Green, who has been with the Cardinal for the past 15 years, will begin his new position in September.

"I was very surprised when I was offered the position," said Green. "I've always wanted to be a head coach in a major college and this is a great opportunity for me." Green added.

"I am looking forward to being a part of the Stanford program and helping the team achieve success at the highest level," Green said.

Minerals Cause Creek Pollution

By Debra Schott

Tar Creek, along with other creeks in the area, has been cited for high levels of minerals and pollutants. These conditions have been traced to the mining industry.

"The mining industry has been a major contributor to the pollution in Tar Creek," said Environmental Consultant Dr. David Johnson. "The mining operations have caused significant changes to the creek's water quality." Johnson added.

Library Fines Payment Due ForDismissal

Students need to pay overdue book fines and return books to the library no later than January 30, according to Susan Lee, LRC director.

"We need all books returned to help us maintain the library's collection," Lee said.

Annual Time

Yearbooks are available in the business office. Receiving your yearbook at Bryant High School is now easier than ever.

U.S. Bureau of Population Provides Official Census

For the past week and continuing through the next two weeks, the Bureau of Population and Housing in the U.S. Census Bureau has been conducting a census.

"The census is an important tool for understanding the diversity of our country," Census Bureau Director Dr. Linda Smith said.

Graduation Practice Held

Tar Creek Graduation Practice will be held on Thursday, May 8 at 6 p.m. in the auditorium. All students, including those who are unable to attend the main ceremony, are encouraged to attend.

"This is a great opportunity for students to practice for the main ceremony," said Tar Creek Principal Dr. John Johnson.

"The practice will help ensure a smooth and successful graduation ceremony," Johnson said.

Tar Creek Lake has been a popular destination for fishing and boating activities. However, recent chemical spills have caused concerns for local residents.

"The lake has been affected by these spills," said Resident Ben Johnson. "We need to work together to protect the lake and its environment." Johnson added.

"The mining industry has been a major contributor to the pollution in Tar Creek," said Environmental Consultant Dr. David Johnson. "The mining operations have caused significant changes to the creek's water quality." Johnson added.

Sun Rays Cause Dangers When Protection Avoided

By Dana Rivens

SPRING BREAK is just around the corner and in a moment summer will finally be here. Now is the time to enjoy the sun in the hot afternoons and early evenings, but don’t forget to protect your skin!

Melanin, which is produced in the cells just below the outer layer of skin and which is, in fact, the pigment substance that makes your skin tan, also acts to protect your skin from being damaged by harmful skin-destroying ultraviolet light.

If you’ve always suspected that your skin does not actually burn when you take a shower, you’re right. Used sunscreen and dead skin cells will wash all with a scrubbing. Your skin actually thickens over a period of very light exposure to sun. It’s the amount of melanin in your skin that determines whether you are suntanned or dark and whether you are able to sit in the sun for long without burning.

Pryor Freshman

By Terry Robinson

Too often, we overlook language, but this term has been one of the many for students like Cynthia Cummins, the only foreign language student in her class. She speaks German, French, Spanish, and English.

HAVING FALLEN FROM PRyor HIGH SCHOOL a year ago, 18-year-old Cummins has accomplished quite a lot in her stay here.

While in high school, she gave two speeches in Spanish, Who’s Who in Foreign Languages in America; she also received Cummins Achievement awards for her work in English. She is a Spanish student in 1977 and 1978 and the top German student in 1976.

During her first year as an active student, Cummins has been on the President’s International Advisory Council, a Campus Diplomatic, International Club member and treasurer, and student senate representative. Even with all these activities, Cummins has managed to maintain a 3.6 average which qualified her for the Dean’s Honor Roll.

“IDEALED TO TAKE FOREIGN languages in high school as a change in curriculum, I could understand and communicate in a language other than English,” said Cummins. “At the time, it was not too difficult. I just enjoyed it because it was something different, she said.

During the summer between my sophomore and junior years, I met several Spanish-speaking people, and I had an intense desire to communicate with them in their own language,” she concluded.

This prompted Cummins to take a second year of Spanish and a first try at German which she found to be even more challenging than Spanish.

“AT THIS TIME I was trying to decide which career would be the most beneficial for me to pursue,” she said. Her love of foreign languages has made her career choice inevitable.

The career Cummins has decided upon will be to work as a diplomatic emmissary for the United States. “I would like to be stationed in West Germany, preferably in West Berlin, but that all depends on Uncle Sam,” she explained.

Cummins chose the University of Miami because it is a good school and is a good place to go to school.

Financial Aid Available to Students

By Ruby Covuto, Senior Reporter

The question of financial aid is one that is engaged by almost every student wanting to attend the high school level. NED offers a wide variety of financial programs.

For most students, financial aid begins with the B.C.O. program. B.C.O. does not have to end there, however. The Basic Opportunity Grant Program is funded by the federal government, and is available to all students who are citizens of the United States, and who meet the other criteria outlined in the application.

"THE B.C.O. PROGRAM is one of the most efficient of the loan programs," commented Raymond Reed, financial aid officer. "Once the application is submitted, the college receives a comprehensive report of the student's financial condition. This information is then calculated in proportion to the cost of attending the specific school involved." Reed explained. The Green form, which takes approximately an hour, to an hour and a half, has been critical in its simplification to make the form as efficient as possible. Regardless of where you attend school, the questions are the same," commented Reed. "The questions are designed so that the computer will be easily understood and as correct as possible.

For those persons who do not meet the requirements of the B.C.O. program, there are other, comparable financial aid opportunities available. These include division scholarships, based on achievements, grades, and need. Tuition scholarships, athletic scholarships, and some organization scholarships are also available.

SPECIAL AID PROGRAMS are also part of the picture for some students who may be a member of minority groups, or those qualified for rehabilitation and who need the assistance.

NED is also a part of the Rehabilitation Services program on the state and federal level, which is designed to work with physically and emotionally handicapped students. Since 1965, only physically handicapped persons were eligible to receive aid under these programs.

"I estimate that about 45 percent of these students receiving aid from this office are also receiving basic grants, or are students that receive federal, state, or institutional aid," remarked Allen King, director of financial aid. "No foreign students are eligible for federal aid. Persons with refugee status, or those from former Commonwealth of Nations are eligible for aid, however.

"ON THE AVERAGE, the office handles about five percent of the student enrollment. We are responsible for providing students with financial aid, so that they can be graduated, employed, or graduated. This office is only one of several special aid programs designed for students with unusual financial needs. NED, for example, is responsible for providing financial aid to students in the field of education, and is supported by a number of other financial aids.

Accomplished Musician Acquires Scholarship to Union, Tennessee

By Jean York, Editor

Many hours of hard work go into being an accomplished musician, but if you have taken music and enjoy music, as Marty Taylor, Fairfield sophomore put it, "it's worth it."

"Music is a hobby for me, if I didn't play the piano, music is basic to my life and I enjoy it so," noted Taylor.

PLAYING THE PIANO is Taylor's favorite but this multi-talented person can also play the organ, tuba, trumpet, and some bass guitar. He also enjoys singing and is taking voice lessons from David Amoss, music instructor.

Last year Taylor performed with the Momentum and the BSO group called Sunstar. "Sunstar was everywhere. We were during spring break to places where the bass guitar. If I like it, it comes easy. I usually end up playing more music by memorization. I don't have any trouble with it," stated Taylor.

During the summer of 1978, Taylor traveled with a group called, United States College Band to Europe. "We performed every country. Switzer land was my favorite. I loved the high mountains, the atmosphere, and especially the fresh air. It was neat to be back there and how it was so hot and how cool enough to have to wear a light jacket," Taylor commented.

TAYLOR'S PLANS FOR the future are to attend school in Jackson, Tenn., at Union University. He will major in music education and minor in Sacred Music.

"I'm going to go there for the summer in order to get acquainted with people. The school is really helping me out. They said I would have a job at least two days after I got there," Taylor noted.

TAYLOR HOPES TO play in a big church someday, and arrange concerts so that it doesn't work out he would like to join a group, either pop or gospel. In this group, he hopes to be able to play on the piano, go places and see the world. "Although his music has taken up a lot of his time, it has been well worth it to Taylor. He has received a scholarship to an exclusive school of music and if he keeps on working, who knows, maybe somewhere he will be the next Liberace.

Choir

The Smoke House Band got together again with a few extra members and performed at the Red Willow Band's Concert last Tuesday night. Members are: Lynda Hunt, Tisha, Craig Lee Goodman, Tina Hopf, Tisha, Ann Minich, Steve Holladay, David Crawford, Barretta and Rona, Tisha Jewett, Tisha, John Page, Claremore, Tisha, and Jim Lamper, Miami High School.

Talent Remains in Area

By Dick Lemoineick
Sports Reporter

While many local high school baseball players in this area are headed to college, some remain at home, in that they have graduated, and have no desire to go further.

In the area, there are many high school baseball players who are not only stellar students, but also outstanding athletes.

One such player is Tom Clark, who has been a dominant force in the local baseball scene for several years. Clark has a unique pitching style that has earned him numerous awards and recognition.

Clark's pitching style is a combination of speed and control, which has allowed him to excel on the mound. He has a variety of pitches, including a fastball, curveball, and changeup, which he can mix and match to keep batters off balance.

Despite his success on the field, Clark remains humble and focused on his team. He is known for his leadership and ability to motivate his teammates. His presence on the field is felt not only by his teammates, but also by the fans who support the team.

Clark's dedication to the game has paid off, not only in terms of his athletic success, but also in terms of his academic achievements. He is a straight-A student who has maintained a strong work ethic both on and off the field.

Clark's story is a testament to the fact that hard work and determination can lead to success in both sports and academics. His perseverance and focus have earned him not only the respect of his teammates and opponents, but also the admiration of those who have the opportunity to watch him play.

With his exceptional talent and dedication, it is clear that Clark has a bright future ahead of him, both on and off the field. His story is a shining example of what can be achieved through hard work and persistence, and serves as an inspiration to all those who strive to reach their goals.

Defensive Backfield Weak

EDITOR'S NOTE: This is the last of a series of articles dealing with the various areas and prospects of the 1960 Golden Norseman football team as they progress through spring drills. This week: the defensive backfield.

Returning from last season's squad, the Norse defensive backfield will be hampered with several weaknesses. One would have to say our weaknesses are our inexperience, lack of speed, and our depth.

LEADING THE CHARGE for the secondary will be our one tackle Reggie Howard (5-10, 183) from Tulia and our one cornerback Jack Green (5-10, 153) from Fawnee. Last season Howard had nine tackles and six assists along with one quarterback sack for minus four yards. Howard also forced two fumbles while recovering one covering.

Finishing second on the interception list with two, Green led the Norse pun and kickoff returns. Failing 12 punts, Green returned the ball for 213 yards for an average of 17.8 a carry and one touch down. In the kickoff return department, the Norse returner picked up 261 yards on 14 returns for an average of 18.7 yards each.

Netters Conclude Season In Regional Tournament

By Rick Lomemick
Sports Reporter

Concluding the season against
goodness measures, the NEO
women tennis teams qualified for a
second tournament in the Region II
quarters in Hot Springs, Ark.,
Tuesday and Wednesday.
Number six doubles, Keri Maria
Marins of St. Gregory’s, 6-0, 6-0,
in first round, but women’s
singles. Mary McDonald was
drawn down by Margaret
McPherson out of Eastern 7-6 and 6-1
in the second set. By
women’s doubles on 7-6.
Number three doubles
Berta Wesley defeated Peggy
Roberson of Seminole by scores
of 6-1 and 6-2 before losing to
Terry Williams of Oscar Rose,
6-2, 6-1. The
men’s team won two of their three matches to advance to the
regionals.

LOSING TO INDEPENDENCE, KS. On April 11 by the
of 4-5, the Nepal lost to Nebraska
in singles action and
and Wesley in men’s
doubles. The
men’s team won two competitive
matches to advance to the
regionals.

IN FIRST SEATED men’s
doubles competition, NEO’s
innings and Osborn dropped 6-1, 6-2
decisions to Devall and
in the Regionals.

Gray and Shishlina
were edged by Ron Acosta and
Randy Torrence of Oscar Rose by
scores of 6-2 and 7-6 in number
men’s doubles.

Reaching the semi-finals on
five, NEON fourth-year
Kari Vogel was defeated by Marcia
Marins of St. Gregory’s, 6-0, 6-0,
in first round.
