LEADERS MEET

Four students representing the college Home Economics department have today to attend a full leadership meeting at Parthangle State University in Goodville. Attending the conference are, from right, front, Bonnie Barnes, Sowata, and Lea Gaines, Miami. Back row, Debbie Stilley, Caridee Dabbs, Barnett, Broken Arrow, and Nancy Garver.

More cars cause parking congestion

By Debbie VanSickle

As we are on our way back from the last day of classes, we are faced with the same problem that has been in the past. It is a problem that is not as serious as before, but it is still a problem.

Parking is very important to everyone, and it is something that we should all be aware of. If we can’t find a parking spot, we should try to park in a different area or find a different place to park. It is not fair to the students who have been trying to find a spot all day, and it is not fair to the faculty who have been teaching all day.

Parking is a problem that we need to address, and it is something that we need to do as a community. We need to work together to find a solution to this problem, and we need to make sure that everyone is aware of the problem and is willing to help.

Van Sickle added: “We find the person $25 and charge storage if the car is abandoned. If the car isn’t claimed within a month of the close of school, we dispose of it.”

Van Sickle said: “The speed limit on and around campus is 15 miles per hour. If a person is observed peeling off or driving in circles they are subject to a non-reduction fine $5 fine.”

Another non-reduction fine covers a driving while intoxicated violation. “Not only do we fine the violator, but the vice-president for student services can also assess a penalty,” Van Sickle said.

A still fine of $25 will be levied against violators parking in a handicap space without proper identification.

“We have a bus that allows the students to travel within our community and make sure that they are safe,” Van Sickle said.

Problems generate stress for students

Almost every college student faces problems which cause a lot of stress.
The problem of stress is caused by numerous things in the student's surroundings. It can be caused by too much homework, or stress can be a major factor which determines the student.
Other students may find stress in a college student's life is family or relationship problems. A student who is about to be married, but he is uncertain if he will continue on the test itself.
Also, some students have major stress on the college student.
Since, for the first time his parents are not there to support him financially.
Out of the best cares for stress is just to take a day off and relax.
This could vary from being sick to staying home, but you don't have as much as relaxation is achieved.
Other methods, that are just as effective, if the time is not available.
are, deep breathing, positive visualization, and muscle techniques.
Deep breathing is the most common method used for handling stress. It can be used anywhere, which extends from class rooms to dorm rooms.
Positive visualization is a method which can also be used anywhere. In using positive visualization, the person imagines himself/s herself in a place where there are no problems or pressures.
Massage is also a good method to relieve stress. Professional massages cost from $30 to $100. But, if you are lucky, you can find a person of the opposite sex to perform the job for free.
Stress originates from life itself, but it can be handled if the person acknowledges the problem and attempts to relieve it in the right manner.

NBC routes other networks

Editors Note: This story was taken from Monday, September 22, Miami News-Record.

The second year in a row, the Academy of Television Arts and Sciences notified a hit new show to honor the CBS police series "Cagney & Lacey," but NBC was the big winner with 19 of the 31 Emmys.

ABC's "Moonlighting," which led going in with 18 nominations, was shut out Sunday in the 36th Emmy Awards at the Pasadena Civic Auditorium, winning just one award - editing - in a field of five, despite winning two weeks ago. It was the same fate suffered last month by "Miami Vice," which had 15 nominations but won only for supporting actor Edward James Olmos.

"Cagney & Lacey" won for best drama series, outstanding lead actress, Sharon Gless, who plays Detective Christine Cagney, supporting actor John Karten, who plays Detective Mary Beth Lacey's Husband Harvey, and a directing award for George Stanford Brown, co-star Tyne Daly's real-life husband. It was NBC's second consecutive best drama award for the show.

NBC's first-year comedy series was The Golden Girls, bested out "The Cosby Show" and garnered five Emmys, while NBC's "Peter the Great" was nominated best music series and his "Love Is Never Silent" was named best drama or comedy special.

Counting the craft awards and announced two weeks ago, NBC collected 34 Emmys, CBS 22, ABC 11.

The NBC telecast, with host David Letterman's "Late Night," starred Shelley Long, ran a minute longer than three hours, virtually on schedule. The emotional peak came with the presentation of the prestigious Governors Award to 73-year-old Sheldon, who received a standing ovation, as did Lucille Ball, who introduced him.

This was the fourth year Ms. Ball had been nominated but for the past three years Ms. Dalby had won.

"This was part of my dream," said a weeping Ms. Ball, holding her Emmy high above her head. She thanked Ms. Dalby, "I am sure is the most relieved woman sitting here tonight."

We want to thank the people, I forgot to thank last year," cracked William Daniels as he collected his second Emmy as best lead actor in a drama series for his role as Dr. Mark Cates on NBC's "St. Elsewhere." Bonnie Bartlett, his wife on the show and in private life, was named best supporting actress.

John Lithgow was named best guest performer in a drama series for his role in NBC's "Amazing Stories." The Emmys for guest stars is a new category. Tom Poston, John Tinker and John Mahin won the writing Emmy for a drama series for the "Time Heals" episode of NBC's "St. Elsewhere."

"The Golden Girls" was named best comedy series, winning over "The Cosby Show." Betty White was selected as best lead actress over two of her co-stars, Bea Arthur and Rone McCullough. It also won for technical direction.

Michael J. Fox won as best lead actor in a comedy series for his role as Dr. Andrew Shepherd on NBC's "Family Ties." He was nominated last year for the same role as a supporting actor.

Two winners from last year were from only. They were John Larroquette of NBC's "Night Court" and John Potterman of NBC's "Cheers." Ronse Lee Browne was named best guest performer in a comedy series for "The Cosby Show." NBC's "Peter the Great," filmed largely in the Soviet Union, was named best mini-series. It also won for music composition. Larry Schiller accepted the award, apparently signing a settlement to his suit following his dismissal as director. It was Schiller who put the mini-series together and secured cooperation of the Soviet Union.

Dustin Hoffman won best lead actor in a mini-series or special for his role as Willy Loman in the CBS special "Death of a Salesman." There has been a controversy of Broadway in 1984 when Hoffman was denied a Tony nomination for the role.

ABC's only award of night went to Colleen Dewhurst for the ABC drama "Between Two Women."

Letter
Dear Editor

Being a fan of a splendid movie, I must protest the statement that your reviewer made about the film in The Fly. He said that the gore and fear in the movie "incredible" and was "too gory." He also remarked that "If you find some unusual reason to see this movie, don't expect anything before indulging in gore."

There are some very graceful scenes in the film, but they are not just "gore for gore's sake" as with some of the current splatter films. Cronenberg pushes for reality in his film, and anyone familiar with his work ( Videodrome, Scanners) knows that he succeeds. We do not know if this is what would happen in real life. Brundle (Goldblum) is a man trapped in a fly, but it's fun to speculate.

And that's not what these films are about. Henry Hoffman (as staff reporter/actor).

Tracye Couasse
Coed president

"The basis of learning different ethnic groups from the Navajo to Cheyenne, are just part of the heritages different Indian students learn from one another," stated Charley Foreman, president of the Native American club.

Students learn about their backgrounds while getting to know other Indian students. The Indian club has various activities throughout the year.

"The Indian club tries to be active in all campus activities, but the main activity is the pow-wow which is scheduled in April," says Foreman.

The newly elected officers for the Indian club are Charley Foreman, a sophomore from Jay, vice-president; Rider Studer, a sophomore from Miami, secretary-treasurer; Dena Rae Hughey, a freshman from Quapaw, student senate representative; and Brenda Jo McCabe, a freshman from Quapaw, student senate alternate.

"This is a group that you can feel comfortable to be around, you can make lasting friendships and share interests," said Foreman about the involvement of the Indian club.

"People need to be proud of their Indian heritage because they are a special type of Indian," adds Foreman.

To be a member of the Indian club the member has to be interested. "There are no requirements to being a member of the Indian club," informs Foreman.

One of the goals for the Indian club is to mainly build up their membership. "There is over 300 students on campus that are Indian and one of our goals is to build the membership and get the Indian students involved in the club," concludes Foreman.

Engines form organization

"The engineer's club is open to any person who is previously or presently enrolled in three credit hours of math, physics and chemical science," stated co-adviser Ed Hammons.

Hammans, a member of the math department, serves as co-sponsor with math instructor Orland Aldridge.

The engineers club invites past speakers to talk on the topic of engineering.

"On Oct. 11, a former student of NIO, Kim Wells will be here to talk to the engineer members," says Hammans.

Chapter sets initiation

By Kathleen Hixon

Initiation for members of the Mu Chapter of Phi Theta Kappa will be conducted during Parent's Day festivities, Oct. 4, according to Bob Rray, organization sponsor.

The ceremonies are scheduled to start at 10 a.m., Saturday, Oct. 4, in the ballrooms of the Carter Student Union building. Initiates are expected to arrive at 9:30 a.m. prior to the start of the ceremony.

Formal dress will be required and parents and family of the inductees will receive an invitation to the event.

Invitations for the ceremony are available in the Phi Theta Kappa office located just inside the west entrance of the student union building.

Prospective inductees into the Mu Chapter of the national honor society are:

Father contributes to success

By Kristie Smith

Fraternity President

Freshman class president Mark Womoonwirth attributes his success as a politician to his father.

"Everything I do reflects back on my father. He inspires me and wants me to be much greater than he is. he was representative for Oklahoma last year and now handles law cases in Lawton while being an active campaign manager for Terrill of the 46th district."

Like his father, Mark plans to continue in politics.

English teacher makes switch

After teaching junior and senior English for seven years at Commerce High School, Jo Sue Glenn decided she wanted to become a part of our college faculty.

Glenn teaches Composition 1113 and Composition 1223 at this campus.

"I graduated from NED, and I have always wanted to come back to teach here," said Glenn.

After graduating from here, Glenn went on to earn her Bachelor of Science degree at Missouri Southern University. After that, she attained her Master of Science degree at Pittsburg State University.

"The kids seem to be about fifteen to twenty years younger now," said Glenn while she felt the main difference was when she was a student in college and her teaching in college now.

Glenn said she had only expected "the best" when she came to teach at this campus.

Glenn's future teaching plans is to remain teaching here at this campus. She said she like "everything" about this college.

"I feel the main difference between teaching at the college level and teaching at the high school level is that there is more freedom for the teachers and the students at the college level," said Glenn.

Glenn resides in Miami with her husband, Kenneth Larry, and her two sons: Scott, who is four, and Keith who is nine.

When she is not teaching, Glenn enjoys writing, sewing, reading, and running around.

Glenn's main goal for this year is to do the best job she possibly can do.

"I guess you could say that they were my first friends here."

"NED is a great college because of the people. They are all friendly and make you feel welcome. I feel like the student worker would still be true to me even if I wasn't president."

Mark feels that an advantage of being freshman class president is the recognition and sense of importance.

"I have no regrets, after I was elected, the guys in Kappa had a party for me. That was great," he said.

The first class meeting will be announced later but is expected to be in October. It will be open to any freshman and the purpose is to elect the homecoming queen.

There will also be a closed meeting for the other officers to discuss fund raisers.

"I just want to let the school know that we'll be active and show the community that the freshman class is here."

Clark vocal as dorm president while functioning as proctor

"I'm shy, but if I don't like something I speak out," said Harri dord dorm president Paul Clark.

A proctor for Harri dord dorms and a member of the inner-dorm council, Clark would like to get things going and make it a special year in the guys dorm.

"If something needs to be done or changed I would like to know and I will take it to the council and get it done," said the Bartlesville sophomore.

"This is a small complaint, but we would like to get the meet moved to the dorm doors in Harri dord," said Clark.

Clark was raised and attended school in Bartlesville. Running cross-country and track during high school, Clark lettered in both and was captain of the cross-country team his senior year.

Clark enjoys playing softball, hunting, and fishing. Clark does not spend much of his free time watching television.

"Television can be used as a good tool, but too many times it's used in the wrong way," Clark said. "I have better things to do with my free time, and I try not to clutter my mind with television junk."

Clark has plans to attend Oklahoma State University to study wildlife conservation and management.

"I would like to become a game ranger in Missouri, but I would go anywhere the jobs are," Clark said.

Clark is also involved in the Forestry Club along with keeping up with his grades.

"To become a game ranger, you have to take a test and be the top percent. It takes a lot, but I hope to keep my grades up and be ready when my time comes to get out and make a living," said Clark.

"When I came to this campus I loved it, but I'm ready for a change and ready to move on to OSU."

GIVING BLOOD

Mark DeLanier, a freshman from Tulsa, gives blood during the annual blood drive held last week on campus. Approximately 85 people visited the one-day bloodmobile and 75 pints of blood were retrieved according to a bloodmobile spokesperson. Plans to have a bloodmobile on campus next fall are being considered.

Hixon coordinates Viking yearbook

By Cindy Gerke

Kathleen Hixon, a sophomore from Wheaton, Ill., will serve as managing editor of the Viking yearbook, according to Manual Franks, advisor.

Joining Hixon as associate editors are Sandi Latimer, a freshman from Coweta; Angela Larenagh, a sophomore from Corinth; and Doug McClure, a freshman from Ketchum. Serving as graphic editors is Ken Rutten, a sophomore from Jay.

Lattimer will be covering the people division of the book while Matthes will edit and compose the index, academics, clubs, and organizations. McClure will cover sports.

Franks assumed the yearbook sponsorship from Janis Lynn Thompson. Since 1980, the yearbook has experienced five changes in advisors.

"This year is also the first time the staff is utilizing a computer program to complete the yearbook," said Franks.

"The program is provided by Jostens/Yearbook Co., is compatible with the Apple III system and enables us to use all copy on a program rather than on individual copy sheets," Franks said.

"It also enables us to have a complete index in the book. But the biggest asset is that it saves time."

"We need more people," says Franks. "We are looking for people who have had experience or are interested in learning to do yearbook layout and design."

Anyone interested should contact Franks in Shipley 121.

Thus far this year the staff traveled to Claremore Junior College for a workshop sponsored by Jostens. On Oct. 31 they will also travel to Oklahoma State University in Stillwater to participate in the fall conference of the Oklahoma Collegiate Press Association.

"We will have several books for this coming year that need to be sold," says Franks.

The yearbook will contain 152 pages with an eight page color spread and several unique design features.
Red River Revenge

By Linda Bridges

One of the most ferocious competitive physical football games in Texas will take place, Saturday, 7:30 p.m., as the fourth ranked Golden Norsemen travel to Tyler, Texas to face the Tyler Apaches.

Coach Glen Wolf's Norsemen will enter the game with a perfect 3-0 record. The Norse rolled past Corsicana, Texas, 32-13, last week in Corsicana.

Vernon coach Charlie McGinty's Apaches were rated fourth in the first National Junior College Athletic Association poll last week. The Apaches were upset, 5-3, by Kilgore, Texas, last Saturday to pull out of the weekly rankings with a 2-1 record.

Last year the Golden Norse earned a 24-10 victory over the Apaches in Searcy, Arkansas. The Norse held a 1-9-2 edge in the series that dates back to 1954, the Norsemen are 1-4 playing in Tyler.

Against the Apaches last year the Norsemen held a decisive statistical edge by rushing for 397 yards while holding the Apaches to 122 yards on the ground. The Norse completed 6 of 16 passes for 86 yards while the Apaches passed for 91 yards on 4 of 11 passes.

This year extremely tough, physical, well-coached football teams shaped the contest, said Coach Wolf.

"They have a well-balanced team with a wide-open passing attack and a solid ground game."

Expected to guide the Golden Norse offensive is quarterback Mike Bollard. After making his first start last week Bollard has completed 10 of 23 passes for 168 yards and two touchdowns.

"Tomm did a good job last week against Cisco in running the offense. He made some sound decisions and threw the ball well off the option," Wolf said.

Joining Bollard in the backfield will be Marion Buss at fullback with Clark at tackle.

Clark leads the Norse rushing attack with 170 yards on 36 carries and one TD. Clark has also gained a 3-yard touchdown pass.

Buss has rushed for 89 yards in 21 carries with one TD. Buss has caught a 4-yard pass.

Leading the Golden Norse receiving corps is freshman Phillip Collins with three catches for 53 yards at wide receiver.

Planker Alfred Jones has made three catches for 39 yards and one TD.

"We haven't been executing our blocking schemes properly either in the backfield or along the offensive line. We've got to start doing the little things that will keep our drives alive and not stall out," said Wolf.

Defensively, the Golden Norse have completely stifled the opposition running game. The Norse are allowing only 0.2 yards per running play while giving up 128 yards in total offense per game.

Facing the Golden Norse defensive effort is linebacker Mark Rice with 16 unassisted tackles and 12 assists.

Vernon linebacker Glenn Murray has made 14 solo tackles and 12 assists.

Returning home from a three-game road trip the Golden Norse enter Saturday's contest with North Texas junior varsity Saturday, Oct. 4, at 2 p.m. Parent's Day contest.

Women cagers face tough slate

Women's basketball schedule: No. 6-St. John's, Jan. 15 when the Lady Norse face the newest entry in Region II, Oklahoma Junior College at Tulsa.

The Lady Norse open the season participating in the Bi-State pre-season tournament scheduled Nov. 6-8, at the Mabee Civic Center.

A journey to Coffeyville, Kansas to meet with Coffeyville Community College on Nov. 10 will keep the Lady Norse on the road.

To finish the first road portion of the season, the team will travel to Pampa, Texas for the Pampa tournament scheduled for Nov. 13-15.

Returning home on Nov. 17, the Lady Norse host Seminole Junior College. Last year the ladies dropped Seminole 74-42 Conference action began on

Intramural Highlights

Flag Football

The Russell Renegades and the Home Boys remain the only undefeated teams after two weeks of flag football.

Despite scoring only 21 points, the Renegades own a perfect 2-0 record. The Renegades opened competition with a 7-0 shutout over the Roughers. Second round action saw the Renegades earn a 14-0 victory over the Roughers. Home Boys have mustered a total of 46 points while holding opponents to a mere 6 points. The Home Boys counted a 20-0 shutout over the Believers in the first game. Enquiring for 26 points, the Home Boys gained a 26-6 victory over the Box Crew.

All the games scheduled Sept. 16 were rescheduled for Oct. 10, according to John Winans, intramural director.

The games originally scheduled for Sept. 26 were rescheduled for Oct. 16, according to John Winans, intramural director.

The Box Crew's victory came against the Koostans 19-6 in the second round. Koostans would come back from the deficit with a win against the Russell Bulldogs.

A bye gave the Believers, their only victory over the 69ers.

The Dragons, who lost to the Koostans, still have a shot at the playoffs if they can win in the re-scheduled game.

Out of competition are the 69ers who have fallen victim to the Renegades and the Believers. The Russell Bulldogs have a perfect record of 2-0.

"We have eliminated contact completely," said Winters.

"Due to this we will allow for more participation and in-game scoring, thus making the games more exciting. But more importantly, I want to reduce the chance of injury as much as possible."

Because the sun is setting earlier, there will be a discussion Monday, Sept. 29, concerning schedule changes in Russell Hall.

Bicycle Race

Anyone interested in participating in an all-college road bicycle race should contact winter's in the intramural office located in the lobby of Russell Hall.

Singletennis Tournament Registration for the singles tennis tournament will be in the lobby of Russell Hall. The tournament is scheduled for Oct. 6-7.

Doubles Pool Tournament Applications for the Oct. doubles pool tournament will be accepted by Winters.
Ladies post third position at Lawrence

Despite losing twice much of last week, the Lady Norse cross country team finished third in the University of Kansas meet, last Saturday, in Lawrence, Kan.

Freshman Cassie George paced the Lady Norse effort with a fourth-place finish in the junior college division. George posted a time of 20:30.47.

Another Lady Norse freshman, Gina Gilliland, finished seventh overall with a 21:12.35 time.

Boylett Hackett earned 10th place with a 22:26 time while LaShonda Holloway claimed the 18th spot with a 22:57.1 time.

Cindy Carver posted a 23:18 time to finish 21st.

Johnson County (Kan.) Community College won the meet with 29 total points. Haskell Institute of Lawrence finished second with 30 points while the Lady Norse recorded 63 points.

The Lady Norse travel to Stillwater, Okla. on Saturday to participate in a meet hosted by Oklahoma State University.

Gridders lasso stubborn Wranglers

ELUSIVE RUN

Tailback Keith Demion (20) eludes the tackle of Cisco defensive end Albert Mitchell (4) and defensive tackle Rodney Delgrone (46) on the way to an 11-yard touchdown run. Demion led the Golden Norse in a 32-12 win over the Wranglers last Saturday in Cisco, Texas.

Demion also contributed a spectacular 102-yard kick-off return while racking up 52 yards on 22 carries. (Photo by Steve Eichkorn)

By Robert Whitbread

Sports Editor

Using big plays both offensive- ly and defensively the fifth-ranked Golden Norse crushed sixth-ranked Cisco Junior College, 32-12, last Saturday in Cisco, Texas.

With the victory the Golden Norse remain undefeated at 3-0 on the young season. The Wranglers fell to 2-1 on the year.

Transfer quarterback Tom Bolyard made his debut for the Norsemen and completed 7 of 17 passes for 135 yards and two touchdowns.

Tom did a better job at running “the offense,” said Norse coach Glen Wolfe. “He didn’t hurt us with his decision-making and he completed most of his options.”

“Our backs aren’t blocking at all. They’re not doing what we have been teaching them and therefore, we can’t make any progress in our offense,” said Wolfe.

Bolyard’s performance was almost overshadowed by the play of defensive end Ed McCoy. McCoy recorded five quarterback sacks for a minus 26 yards while making 10 unassisted tackles.

Cisco opened the game covering 68 yards in 9 plays as quarterback David Dacus connected with tight end Joe Hough on a 6-yard touchdown pass. Eric Edwards added the extra point for Wranglers.

In 17 seconds the Norse struck back. Keith Demion took the kick-off two yards deep in the Norse’s endzone and dodged tacklers for a 102-yard TD run. Jerry Springer created a 7-7 tie with the point-after.

“I think it (kick-off) turned it around, had we not done that and they turned around scored it would have been different,” said Wolfe. “Keith did a fine job running the ball back and made good moves.”

Defensive tackle Eddie Randle made a fuible recovery for the Golden Norse at the Wrangler 17 yard line.

Demion covered the entire 17 yards on two running plays and scored his second touchdown of the afternoon. The score came with 14:16 left in the second quarter and covered 11 yards.

The two-point conversion failed for a 13-7 Norse lead.

After the Norsemen moved to the Cisco one-yard line, the Wrangler defense stiffened.

Cisco took possession and on the next play Dacus was sacked by McCoy for a safety.

Linebacker Torrence Cummins’ recovery of another Wrangler fumble set up the Norse’s last touchdown of the first half.

Starting at Cisco’s 18 the Norse struck quickly as Bolyard lofted a 15-yard scoring strike to wide receiver Alfonzo Jones. It left only 3:20 in the half and was the first TD pass of the season for NEO. Springer hit the PAT for a 22-7 Norse cushion.

Defense set the tone during the third quarter as neither team scored. The Norse managed only one three-play-offensive series during the quarter.

Early in the fourth quarter Cisco’s Edwards attempted a 31-yard field goal, but the ball fell short of the goal post.

After the unsuccessful kick, the Norse marched to the Wrangler’s 11. After three no gain plays, Springer booted a 28-yard field goal with 11:45 left on the clock to spread the lead to 25-7.

The Wranglers cut the deficit to 25-17 as tailback James Dixon scored on a 5-yard run at the 7:30 junction.

The two-point conversion failed as Cisco rushed 25-13.

Starting on their own 20-yard line Cisco drove 80 yards in 12 plays.

Starting at the Wrangler 34 yard line the Golden Norse completed a final touchdown drive.

Bolyard was on target with a pass to tailback Lamon Clark good for a three-yard touchdown with 16 seconds left in the game.

Wide receiver Phillip Collins made 7 receptions for 45 yards in pace the Norse receiving corps.

Demion led the ground game with 52 yards on 22 carries and one TD. Clark added 29 yards on 9 carries.

Cornerback Ben Smith made seven tackles to help the Norse defense limit the Wranglers to one yard rushing on 39 carries.
The Norsewind – the NEO A&M College Newspaper

Digital copies of The Norsewind, Northeastern Oklahoma A&M College’s student newspaper, are available in .pdf format on the NEO website for non-commercial purposes only. Scans were created using the best available editions through the assistance of the Oklahoma Higher Education Historical Society from microfilmed images. Where stains, color-fading, contributed marks or ripped pages were visible on the original, they also appear in the digital copy. NEO newspaper editions that do not appear on the website are not part of the collection at present. If you would like to donate a missing, damaged or incomplete copy of The Norsewind, please contact the NEO Library.
